## Section 1: Weekly Fix-It

### Thank you Email

From: Jonathan McHugh [mailto:jmchugh40@mac.com]  
 Sent: Sunday, December 20, 2009 5:57 PM  
 Subject: Thank you for the Friendship Park field Drainage Solution

Hi Mr Ali,

I want to thank you and DPR for all the hard work that has resulted in a successful resolution of the Friendship Park fields drainage issue. I think I can speak for the Van Ness neighbors in saying it's well-appreciated when a job is done right and results in an immediately felt benefit to the community. You were instrumental in ensuring the project was a success and we were fortunate to have your involvement.

Vince Cain and Abdi Musse were also helpful in moving things along.

Additionally, I want to thank the Mayor's office in the persons of **Andrew Del Junco, Petar Dimtchev and Michelle Fox** for following up on this as well as Drew Newman and Dee Smith from Councilmember Cheh's office. Northwest Little League's help in relocating their sheds to accommodate the drainage swale was indispensable as well. If I've missed anyone in my thanks, please excuse the oversight. An issue like this may seem fairly mundane but it will help immensely in preserving citizen properties from the stormwater issues we've experienced in the past as well as making the fields more playable with the improved drainage.

Kudos to everyone. I've attached two photos of the new swale as well as links illustrating the old issues.

Happy Holidays,

Jonathan McHugh

 Subject: Confirmation #00003119: Excellent Response

The Honorable Adrian M. Fenty  
 Mayor of Washington, DC

Dear Mayor Fenty:

The appropriate District Government agencies quickly corrected a traffic hazard in this Tenleytown neighborhood. Thank you very much.

Using the "Mayor's 311 Citywide Call Center" yesterday afternoon (Tuesday January 5, at about 4:05 pm), I reported to Mrs. Lawson that water from an unknown source was flooding from an alley into the 4300 block of 38th Street between Windom Place and Yuma Street in Northwest. Given the anticipated low temperatures, it was likely that the water would freeze overnight and cause unexpected icy conditions for motorists.

En route to the Bernard T. Janney Elementary School groundbreaking ceremony this morning I saw that the icy patch had been sanded and salted, and that DC equipment was standing by to finish the job. I really appreciated this prompt and thorough response.

With best wishes for the New Year,

Sincerely  
 John F. Ritchotte

**Subject:** Re: Trash pickup on Potomac Ave

Drew: Thanks for the reply, and thanks for your efforts to be in the trucks in that terrible weather.

Our section of Potomac Ave is not well known, as it only stretches from Ashby to W.

It would be really great if we could get plowed and salted sometime. Again, thanks for your responsiveness and willingness to work with us. Jocelyn

**Subject:** Re: Please Plow 3100 and 3200 Blocks of 38th Street --- Very Dangerous with ICE!

I am so impressed with your quick response! They came very soon after you responded. They didn't really plow but did drop a lot of salt which did the trick.

Thank you so much. Happy Holidays!!!

Regards,

Eileen

**Subject:** RE: UDC shoveling its walkway

The walkway alongside UDC on the north side of Van Ness between Connecticut avenue and International Court appears to be UDC's responsibility. Between International Court and Reno (alongside the Embassy of Pakistan and of Malaysia) is likely to be the city's responsibility.

Your attention to this has been outstanding. Thank you very much.
